

## **WWII Appeasement Video and Reading**

You are going to watch the video on appeasement and visit the History.com website and read about appeasement. For BOTH the video and the website you will write a complete paragraph, that means two paragraphs total, summarizing the main points of each.

To remind you, a paragraph is at least 5 well-constructed sentences. You need to read the entire page on the website and listen to the entire video. Just writing down the first few things you read or hear, will mean you will not receive full credit.
